

SHOW REPORT

Westdeutsche HiFi-Tage 2018 in Bonn - Germany

Last weekend of September 2018 we gave a Reimyo/Hijiri/Harmonix demo at the 'Westdeutsche Hifi-Tage' in Bonn - Central Germany. A big respective show, already for many years organized by the exclusive Hifi dealer 'Hifi Linzbach', also located in Bonn.

We presented an active demo with the latest new Reimyo TUKO, Hijiri Million and Harmonix Million products. Like always at each show we tuned and balanced our fifty square meters room with 3 sets of our favourite RFA-7800 Room Tuning Devices.

To play vinyl record music the original world reference broadcasting turntable EMT

948 (TSD15 cartridge) was used, next to the fabulous Reimyo TOKU CDT-777 TOKU CD-transport and DAP-999 TOKU-S D/A-Converter.

Our demo room was surrounded by other demo rooms, that carry many exclusive high end brands, all playing with very large speaker systems. Like for many years we used the Harmonix ENCORE monitor speaker on new T-Bone speaker stands. We made sure that the speaker setup was tuned and well balanced with a tuned Reimyo system and the room itself, to make sure that attendees could embrace and soulfully enjoy music every moment and at every spot in the room.

Many attendees were surprised to hear that such a pair of small ENCORE speaker playing and expressing music all over the room. We received many thumbs up and many compliments about the sound. Many visitors said that no other system they heard at the show was expressing so much musicality and true dynamic like this ENCORE/Reimyo setup. Some visitors were somehow shocked to hear the ENCORE capable of producing so beautiful music. Like on many previous shows people asked us where the subwoofer was located. But, there was no sub present. Also reporters of hifi magazines were impressed by the sound of our demo. Some reporters said: 'it's unbelievable what is happening in this room'.

During the show we spoke to many visitors who wanted advise about Harmonix Tuning.

Many got stuck in the hifi accessory swamp and wanted to start using Harmonix. So it took many happy hours to talk and hand out all new Harmonix and Hijiri catalogs.

We hope to participate next year at this show again.
