

# Gran Galà Show in Padova Italy

The show was, during October 8 Saturday and 9 Sunday in Crowne Plaza Hotel Padova has been taken placed.

I decided to participate in this show at the last minute because from 2016 May we have a new dealer appointed in Mestre / Venezia as this dealer, for right now, still new and they need our support. We prospect this new dealer because Owner is a man of great sensitivity and knowledge of the high end field. During the show, he was able to listening our system and was hard to hold tears came out and he spent lots of times in listening. He has admitted that our system was best ever heard in his 30 years of audio activity (he was also a journalist in SUONO magazine), and hundreds of systems he came across ever, not believed to be able to thrill listening a new system.

The show was very successful as was attended by many people and all were strongly and emotionally excited with the sound of our system. Among, so many positive comments there was a musician who

has perceived the beautiful sound when he step in the corridor, even before entering in our room , and he excitingly said that our system was the only one " lifelike ", sound while the others were all " dead ". Another visitor called the system "jewelry ".

Mr. Ricci of Fone Records was presenting his new recordings in our room and during the presentation, he commented the quality of reproduction sound by Reimyo and Harmonix system. The audience, this year, was much better prepared about our products, many visitors remembered the

previous exhibitions. There were all magazines and all have complimented with us, subsequently they will publish the articles about the show.

The show was a very exhausting and tiresome, but we are very happy of the result and make every visitors very happy.

Sincerely  
Ethos srl, Italy
